

Sample training for community partners

Training on the 'Framework for support for families affected by the Criminal Justice System'

The 'Framework for the Support of Families affected by the Criminal Justice System' is a reference document, developed and adopted by all Community Justice Authorities in 2016.

'The Framework' aims to support positive life outcomes for families affected by the criminal justice system and includes recommendations describing an ideal standard of support for families at each stage of the criminal justice process.

The session gives participants from across the community and criminal justice settings an opportunity to reflect on their service delivery in line with The Framework.
